Discover Your New Membership Experience

The Professional Beauty Association (PBA) is introducing a new membership experience beginning in October 2014. Individual memberships that expire on January 31, 2015 and beyond will automatically transition into the new membership structure as of January 1, 2015. Members will be granted additional months of membership to compensate for the change in member dues and access to benefits. You can view the member modification extension chart to the left.

Organization members who joined after February 1, 2014 will automatically be extended from calendar year membership to anniversary year membership. These will expire on the last day of the anniversary month in 2015. Organization memberships starting before February 1, 2014 will still expire on December 31, 2014 and will renew into the modified membership structure.

Have questions about your membership?
